1 The term ‘Aboriginal’ is used to describe the many nations, language groups and clans in New South Wales (NSW) including those from the Torres Strait. The preference for the term ‘Aboriginal’ to ‘Aboriginal and Torres Strait Islander’ in NSW recognises that Aboriginal people are the original inhabitants of NSW (NSW Ministry for Health, 2004, Communicating positively: A guide to appropriate Aboriginal terminology. 2 Median equivalised household income is not a measure of the total income of a household. It is a measure of the income a lone person in a household would need to have the same standard of living as the household in question (See Overcoming Indigenous Disadvantage Key Indicators 2016, p.481)
